Towards Remembrance, Integrity and Compassion

We are here to do the Job. We will do it. We are doing it.  
This is our Summit. The foundation we are building.  
All the Stars that awake on the Planet  
Converge in one direction  
Realizing Humanity's Potential  
Remembering our Path  
Caring for our Past, Future and Present  
Ancestors, Heirs, Elders, Brothers and Sisters  
Plants, Minerals, Animals, Spirits and Star Peoples  
This is our Summit. The foundation we are building.  
We came here on Earth to do the Job. We will do it. We are doing it.  
One trajectory: SDGs 2030 - carbon neutrality 2050 - +1.5° 2100  
Breathe, Sing, Listen, Play and Dance  
Time is Now  
To Act, to React and to Dive  
Into your most remote Memory  
The one you keep above your Head  
And inside of you, in your Heart and in your Belly  
Each one of your cells is asking  
To make that Bridge  
Altogether  
We have the power to Move  
To let a new Game  
Recompose our surroundings  
Gearing up  
Towards harmony, integrity and understanding  
We know the Way  
With Joy, Friendship and Ecstasy  
Peace, realization, embodying  
Welcome Home  
A new Story is being born  
A new Health, a new Earth is at reach

# "DIAMOND MINE" : Inspiration, EDUCATION, Research – PLOT → a Narrative – Monday, June 14 to Tuesday, June 15, 2021

## 1. DIAMOND MINE : Inspiration, Education & Research Program

STRATEGY DRAFT

### → Drafting a PLOT for Planetary Education, Transformation & Exploration NARRATIVE:

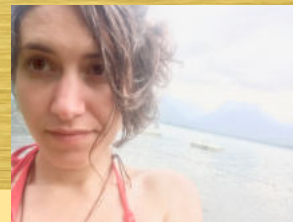

- **Listening & Storytelling as master key healing & empowering processes & skills; Art - singing, dancing, painting, drawing, playing music...- and playing as key connectors and activators of storytelling, learning and growing,** at collective and individual level ;
- **An archipelago of consciousness, embedded in archetypes\*** containing the subtle energy enlivening the psycho-emotional realms attached to cultures, continents, egregores, religions, concepts, practices, sectors, disciplines, organizations, collectives & individuals, **holding the keys to material transformation;**
- **An essential route for events to build that positive timeline,** inspiring from the flower of life and the Bildung rose\*\*, weaving together the living & areas of human knowledge and activity, life purposes & trajectories with collective design through citizen networks, acting as a catalyst for people power :
  - **2030 : Research / Focus on Ethics & Aesthetics → a healing Odyssey around the Earth,** illustrated by the outer conquest of Mars and the inner conquest of Human Desire, setting up a new epistemological device combining analysis & analogy, a global Citizenship Healing Emergency Policy with sharing circles in each collective + global broadcasting of healing stories; shaping an outer production route towards a resilient - carbon-neutral, recycling & zero-waste - economy operating with new tools & imaginaries, empowered with inner growth skills & knowledge, awakening human inner senses, responsibility and the ability to cooperate ethically & aesthetically;
  - **2050 : Action / Focus on Narrative → a University out to Sea,** informing and monitoring planetary bio-ethics-techno-diversity;
  - **2100 : Creation / Focus on Science, Technology & Production → a regenerative Earth Design,** conquest of the Solar system as Human Power & Pantheon, Creation Power
  - **2632: Research, Action & Creation / Ethics, Aesthetics, Narrative, Science, Technology & Production → a regenerative Galactic Design,** conquest of our Galaxy with its black hole at the center, as an expression of a new reality, based on consciousness & fully embodied human responsibility ;
- **First, a 10-year-planetary pilgrimage to link, weave and accelerate a global transformation dynamic, healing the wounds of history, polarizing the islets of consciousness thanks to « galactic magnets\*\*\* », enacting a new kind of citizenship** connecting experiences and stories to the implementation of the SDGs, developing the needed inner skills as well as a shared imaginary and narrative, **preparing next global agenda for 2040/2050.**

\*« Jungian archetypes are defined as images and themes that derive from the collective unconscious, as proposed by Carl Jung. Archetypes have universal meanings across cultures and may show up in dreams, literature, art or religion. Jung (1947) believes symbols from different cultures are often very similar because they have emerged from archetypes shared by the whole human race which are part of our collective unconscious.” <https://www.simplypsychology.org/carl-jung.html>

*Some words to get started*

## OUR PERSONAL OUTPUT & CONCLUDING REMARKS - 2021

Incarnation is a choice. We decided to come on Earth and face this situation, and we can do it, if only we are able to open our minds, wills and hearts, to welcome the new with curiosity, trust and insight. We may not have the answer all alone, but together, we can build a dispositive that will increase our consciousness, power of manifestation and feeling of joy and completeness. This is our Vessel. **Our best option is to come back to innocence, which requires a lot of humility. Are we really ready to get back to school?**

**The best strategy is to take full responsibility for current earthling situation, developing a radical response with exemplarity of what we desire, learning how to operate autonomously, coherently and responsibly:** the Galactic Summit for Planetary Design aims at embodying a peak of human consciousness to inspire and enact a new paradigm in the way we relate to matter, as spiritual beings. **This is the only way to build a positive timeline for Humankind, on a firm, concrete ground.**

*This implies:*

- **Opening inner space for taking that inner journey, doing morning body activations,** engaging with the experience at a deep, personal & transpersonal level;
- **Be ready to change habits, letting go expectations and do our best in service of the collective dynamic,** honouring the experience framework, setting and guidance;
- **Be respectful of nature; experiment a circular, zero-waste economy,** being mindful of what you buy, eat, take in and take out of your body throughout the Summit;
- **Practicing English as a basic earthling citizen skill, as well as being open, tolerant to others and to alterity, as a basic galactic citizen skill.**

It is a **work in progress**. I feel a lot of **gratefulness** for what has been accomplished, as it is a huge thing to build our answer as we go, with such an ambition, and means. It could not happen without you, and **I am learning deeply, especially to trust my own judgement, assuming and explaining the requirements of such experience. Next year, I feel the drive for going further and wilder in the nature, the personal and collective practice and the Arts.** After our Community step in 2020 ("heart"), our Strategy step in 2021 ("mind"), it will be our Operational step in 2022 ("body"). I hope to see you then. **Each work attracts the right people, skills and resources, at the right time and the right place. May we be wise enough to keep celebrating it.**

With all my love,
